

## Career Opportunities

April 15, 2010

Positions: Full-Time Environmental Consultant  
Location: Whitecourt, Alberta  
Closing Date: Open

Alta Tech Environmental Services Inc. (Alta Tech) provides environmental consulting, engineering, remediation, soil and groundwater monitoring, reporting, project management and analytical services within West Central Alberta. Alta Tech is seeking an Environmental Consultant to support its clients in a safe and effective manner.

### Qualifications:

- University degree or diploma in environmental engineering and natural or earth sciences.
- Eligibility for professional certification is an asset;
- 2 – 7 years of field and office experience in geo science, facility abandonment, spill response, soil and groundwater remediation, sampling, monitoring, reporting and environmental analytical services;
- Effective writing and communication skills;
- Proficient computer skills;
- Understanding of Alberta Legislation and Regulations;
- Professional, safety conscious and customer focused attitude;
- A valid Alberta driver's license.

We thank all applicants for their interest in Alta Tech. Only qualified candidates will be contacted.
